Registration Form

Dr. Ashok K Chauhan
Chief Patron, Founder-President
Ritnand Balved Education Foundation
(RBEF)
Amity University Haryana

As the Founder President of Ritnand Balved Education Foundation (RBEF), I am delighted to extend my heartfelt blessings to Amity Law School for the successful organization of the 6th Amity International Conference on “NextGen Jurisprudence: AI, Governance, and the Evolving Legal Landscape.”

This conference represents a pivotal moment in our quest to understand and integrate the evolving impact of artificial intelligence within legal frameworks and governance. It is a significant opportunity for scholars and practitioners to come together and forge new pathways in this critical field.

My blessings and best wishes are with the entire team at Amity Law School. May this conference be a resounding success and lead to impactful outcomes that contribute to the advancement of legal and governance studies in the age of technology.

Best Wishes,

Dr. Aseem Chauhan
Patron, Chancellor,
Amity University Haryana

As Chancellor of Amity University Haryana, I am delighted to extend my warmest congratulations to Amity Law School for organizing the 6th Amity International Conference on “NextGen Jurisprudence: AI, Governance, and the Evolving Legal Landscape.”

This conference reflects our commitment to addressing the pressing issues of our time by integrating advanced technologies with legal and governance frameworks. It is a testament to our dedication to fostering academic excellence and innovation.

I am confident that this event will stimulate meaningful discussions and yield valuable insights, furthering our understanding of how AI can reshape legal paradigms. Kudos to Amity Law School for leading this important discourse.

Best Wishes,

Prof. [Dr.] P. B. Sharma
Vice-Chancellor,
Amity University Haryana

It is with immense pleasure and a deep sense of pride that I extend my warmest congratulations to Amity Law School, Amity University Haryana, for organizing the 6th Amity International Conference on the theme: “NextGen Jurisprudence: AI, Governance, and the Evolving Legal Landscape.” This landmark event, scheduled on November 07-08, 2024, underscores our commitment to addressing contemporary issues through innovative and interdisciplinary approaches.

Under the visionary patronage of our Hon’ble Founder President, Dr. Ashok K. Chauhan, and the inspiring leadership of our Hon’ble Chancellor, Dr. Aseem Chauhan, Amity University Haryana has established itself as a leader in research and academic excellence. Over the past decade, our university has achieved remarkable milestones, including over 258 patents, more than 6,500 research publications, and 105 high-impact R&D projects funded by esteemed government agencies such as DST, DBT, ICMR, MoIT, AYUSH, ISRO, and BARC. Our cutting-edge research facilities, including the Bio-Innova Research Cluster labs, Robotics and AI lab, and Aerosol Research Facility supported by NASA Aeronet, reflect our dedication to advancing knowledge and fostering innovation.

In alignment with our mission to drive academic and research excellence, Amity Law School’s initiative to explore the intersection of artificial intelligence, governance, and legal frameworks is both timely and significant. The evolving landscape of AI presents new challenges and opportunities for legal jurisprudence, and this conference aims to be a pivotal platform for practitioners, academicians, and scholars to engage in meaningful dialogue and collaboration.

As we move forward, I encourage all participants to embrace the spirit of rigorous inquiry and ethical responsibility. Our quest for perfection and our commitment to continuous learning and self-study are crucial as we navigate the complex interplay between technology and law.

Let us continue to uphold the values of diligence and self-improvement, guided by the words, “Kushlann Na Paramaditabhyam, Swadhyay Na Pamaditabhyam”—let us strive for excellence and inspire ourselves through relentless pursuit of knowledge.

I extend my best wishes to Amity Law School for a successful and impactful conference. May it inspire new ideas and foster advancements in jurisprudence and governance.

Warm regards,

Prof. [Dr.] Vikas Madhukar
Pro Vice-Chancellor,
Amity University Haryana

It is a privilege to convey my heartfelt congratulations to Amity Law School, Amity University Haryana, for the commendable initiative of organizing the 6th Amity International Conference on the theme: "NextGen Jurisprudence: AI, Governance, and the Evolving Legal Landscape." Scheduled on November 07-08, 2024, this conference represents a significant stride in exploring the intersection of artificial intelligence and legal frameworks.

As a Professor at Amity Business School, I am particularly excited about the conference's focus on how AI is reshaping governance and legal principles. The convergence of technology and law is not just a theoretical exploration but a practical necessity in today's rapidly evolving world. The insights and research generated from this conference will undoubtedly contribute to shaping effective policies and governance structures that harness the potential of AI while upholding legal and ethical standards.

Our commitment to research excellence at Amity University Haryana is mirrored in the dynamic academic environment fostered across our disciplines. With our university's strong emphasis on research and innovation, as evidenced by over 6,500 publications, 258 patents, and numerous funded projects, we are well-positioned to support and advance discussions at the forefront of interdisciplinary research.

Amity Law School's initiative to address the complexities introduced by AI within the legal domain is a testament to its dedication to pioneering academic inquiry. This conference will serve as a crucial platform for sharing cutting-edge research, fostering dialogue among experts, and developing innovative solutions to the challenges posed by AI in legal contexts.

I extend my sincere congratulations to the entire team at Amity Law School for their visionary approach and hard work in organizing this conference. May this event be a source of inspiration and a catalyst for future research and collaboration. Let us continue to uphold our commitment to academic rigor and interdisciplinary exploration, driving forward knowledge that impacts both the business and legal spheres.

Warm regards,

Prof. [Dr.] Ajay Kumar Bhatt
Director, Amity Law School,
Amity University Haryana

It is certainly a matter of pride to realize that today, Amity Law School, Amity University, Haryana is the fastest growing Law School in NCR, not only with strength of students but also National Rankings. While with just 5 (five) students in 2011, now we have a handsome strength of 600 students in UG and PG Courses and 70 Research Scholars. In the recently announced Rankings, Amity Law School has been adjudged 30th by India Today and 33rd in the NIRF Rankings, 2024, in the country.

Under the guidance of a dedicated and professionally competent Faculty, the students inculcate moral, ethical, social, and legal principles which are prevalent in our society. In addition, thereto, the Law School imparts education to its students through various other means and methods, like regularly conducting various Competitions (Moot Courts, Debates, Essay Writing, Legislation Drafting, Quiz etc. at National Level), Conferences and Seminars at both National and International Levels.

The consecutive success of last Five International Conferences organized by Amity Law School has motivated us to organize the 6th Amity International Conference (HYBRID) on "**NextGen Jurisprudence: AI, Governance, and the Evolving Legal Landscape**", on 07-08 November 2024.

I welcome you all to the 6th Amity National Conference, where we embark on a journey to explore the intersection of law, technology, and governance. Our theme, "**NextGen Jurisprudence: AI, Governance, and the Evolving Legal Landscape**," encapsulates the dynamic shifts occurring in the legal world. In an era marked by rapid advancements in artificial intelligence (AI), our legal systems face unprecedented challenges and opportunities. As we gather here, we delve into critical questions:

1. AI and Justice: How can AI enhance access to justice, streamline legal processes, and ensure fairness?
2. Ethics and Algorithms: What ethical considerations arise when algorithms make legal decisions? How do we strike the right balance?
3. Governance in the Digital Age: With data-driven governance and smart contracts, how do we redefine legal norms?
4. Legal Professionals of Tomorrow: What skills must our legal professionals acquire to thrive in this evolving landscape?

Together, let us envision a future where jurisprudence embraces innovation, equity, and adaptability at the helm of this transformative discourse stands our revered **Patron, Dr. Aseem Chauhan**, whose vision, and unwavering commitment have shaped the very essence of this conference. As our **Hon'ble Chancellor**, Dr. Chauhan sets the tone—an inspiration that propels us toward a future where jurisprudence embraces innovation, equity, and adaptability.

We are blessed to have visionaries like Dr Ashok K Chauhan, our Hon'ble Founder President, who aim to make Amity the most prestigious Group by imparting quality education and thereby sending good human beings into the Society. Each one of us is leaving no stone unturned in this direction. I will also fail in my duty if I do not convey my gratitude to the Hon'ble Vice- Chancellor, Pro-Vice-Chancellor and Dean Students Welfare for their unstinted guidance and blessings at each stage in organizing this Conference. Let us embark on this intellectual voyage, guided by the wisdom of our distinguished leader. Together, we shall redefine the contours of legal thought and pave the way for a NextGen legal landscape.

Best Wishes

6th AMITY INTERNATIONAL CONFERENCE

ON

NEXT GEN JURISPRUDENCE: AI, Governance, and the Evolving Legal Landscape

Sub-themes

1. AI Governance Frameworks: Unveiling the Tapestry of Oversight

Sub-Sub-Themes:

- International Collaboration and Standardization
- Ethical Considerations in AI Governance
- Regulatory Challenges in Emerging Technologies
- Public-Private Partnerships in AI Oversight
- AI and Human Rights
- Transparency and Explainability in AI Decision-making
- AI Governance in Critical Sectors (Healthcare, Finance, etc.)
- Impact of AI Governance on Innovation:
- Evaluating the Efficacy of Existing Governance Models:
- AI Governance and Crisis Management
- AI for Sustainable Development Goals

2. Legal Policies and Deep Fakes: Navigating the Digital Jurisprudence:

Sub-Sub Themes:

- Legislative Responses to Deep Fakes
- Intellectual Property Rights in the Era of Deep Fakes
- Privacy Concerns and Deep Fake Regulations
- Criminal Liability for Deep Fake Offenses
- Digital Forensics and Authenticity Verification
- Impact on Political Discourse and Election Integrity

- Media and Journalism Ethics in the Deep Fake Era
- Cross-Border Challenges in Deep Fake Regulation
- Technology-Assisted Dispute Resolution for Deep Fakes
- Education and Awareness in Digital Literacy

3. AI in Legal Practice and Education: Shaping the Future of Jurisprudence:

Sub-Sub-themes:

- Innovative Tools for Legal Research and Analysis
- AI-Enhanced Legal Writing and Document Generation
- Virtual Legal Assistants and AI in Law Firms
- Simulation and Training in Legal Education
- Ethical Considerations in AI-Driven Legal Practice
- AI in Predictive Legal Analytics
- Access to Legal Services through AI
- AI and the Future of Legal Practice
- Adapting Legal Curricula to AI Advancements
- AI and Diversity in the Legal Profession

4. Access to Justice Through AI: Bridging the Divide:

Sub-Sub-Themes:

- Online Dispute Resolution and AI
- AI-Powered Legal Aid Services
- Chatbots and Virtual Assistants in Legal Aid
- AI in Pro Bono Legal Services
- Justice Tech for Vulnerable Communities
- Language Access and Multilingual AI Solutions
- AI and Simplified Legal Processes
- Community-Based Legal Tech Initiatives
- AI in Public Legal Education
- Measuring the Impact of AI on Access to Justice

5. Digital Sovereignty and Ethical Challenges: Charting the Course for a Responsible Future

Sub-Sub-Themes:

- Data Governance and Digital Sovereignty: Issues and Challenges
- Ethics in Artificial Intelligence Development
- Algorithmic Transparency and Accountability
- Digital Citizenship and Rights in the Digital Age
- Cybersecurity and National Security Implications
- AI and Ethical Decision-Making in Government

- Digital Imperialism and Global Technology Influence:
- Technology and Electoral Integrity
- AI in Legal Aid and Access to Justice
- Corporate Social Responsibility in the Tech Industry

6. Competition Law & Other Related Laws and AI Challenges: Navigating the Intersection

Sub-Sub-Theme:

- Antitrust Implications of AI in Markets
- Data Privacy Regulations and Competition Law
- Consumer Protection in AI-Driven Markets
- Intellectual Property Rights and AI Innovation
- Trade Secrets and AI Technology
- International Cooperation in AI Regulation
- Market Dominance in AI Industries
- Ethical Considerations in AI Competition Cases
- Regulatory Challenges in Emerging AI Markets
- AI and Compliance with Regulatory Frameworks
- Trade Law and the Global AI Market
- Taxation Challenges in the Era of AI
- Financial Regulation in AI-Driven Markets
- Labor Laws in the Age of Automation
- Environmental Sustainability and AI

* The participants may write their paper on any other allied topics.

About the Theme:

NextGen Jurisprudence: AI, Governance, and the Evolving Legal Landscape

Welcome to the forefront of innovation at the **Amity 6th International Conference**, where we unravel the intricate relationship between Artificial Intelligence (AI) and the legal landscape. In the ever-evolving tapestry of science and society, AI takes center stage, shaping the education and job landscapes of tomorrow, particularly in the realms of law and governance.

This dynamic forum serves as a global platform to dissect the multifaceted impact of AI on legal systems. We delve into the nuances of AI's life cycles, highlighting the need for an interdisciplinary approach in auditing and evaluating its quality and safety. From data acquisition to deployment, we explore the intersections of innovation, ethics, and practicality.

Our discussions extend beyond technological advancements to encompass the critical domains of robustness, security, and data privacy, ensuring responsible AI implementation. The conference places a special emphasis on the symbiotic relationship between AI and legal frameworks, examining governance structures at various levels, from local to global.

As we navigate, we invite from a diverse community of experts, practitioners, and enthusiasts.

This Conference aims to provide an interdisciplinary forum for world-class academicians, policymakers, professionals, research scholars, students and people from many different fields and interests to discuss and exchange insights and

recommendations about the changing landscape of AI governance, in a broad way, from both Internal and International perspectives. Join us on this enriching journey, where global discourse converges to shape the future of AI integration into legal systems—a pivotal step toward harnessing the full potential of AI for the greater good.

The Conference will provide an opportunity to discuss current and future ideas and directions, research and international developments in the concerned areas, facilitating cooperation between various professionals from different countries as well as cross-fertilizing diverse areas of interest.

The Conference shall be of Six (6) Sessions-

1. Inaugural Session
2. Four (4) Technical Sessions, and
3. Valedictory Session

**For the Technical Sessions,
Following are the Themes and Sub Themes:**

SUB-THEMES:

1. AI Governance Frameworks: Unveiling the Tapestry of Oversight

In the era of rapid advancements in Artificial Intelligence (AI), the need for comprehensive governance frameworks has emerged as a crucial imperative. As AI technologies permeate various facets of our lives, ranging from automated decision-making systems to autonomous vehicles, the complexities associated with their ethical, legal, and societal implications necessitate a structured approach to oversight.

The advent of AI introduces transformative capabilities and efficiencies, but it also raises profound questions about accountability, transparency, and the protection of fundamental rights. AI governance frameworks aim to unravel the intricate tapestry of overseeing these powerful technologies, ensuring that they align with human values, ethical norms, and legal standards.

At the heart of AI governance is the delicate balance between fostering innovation and preventing potential harms. These frameworks delineate guidelines and principles that govern the development, deployment, and use of AI systems. They address concerns related to bias and fairness, data privacy, explainability of algorithms, and the broader societal impact of AI applications.

One of the primary challenges in formulating effective AI governance lies in the dynamic nature of AI technologies. As they evolve, adapt, and learn, staying ahead of the ethical considerations and potential risks becomes a continuous endeavor. Governance frameworks need to be flexible, responsive, and capable of adapting to the evolving landscape of AI advancements.

Moreover, the global nature of AI development and deployment necessitates international cooperation and standardization. Harmonizing AI governance across borders becomes essential to ensure consistency, facilitate innovation, and prevent a fragmented regulatory landscape that may impede the responsible growth of AI technologies.

The role of AI governance extends beyond regulatory compliance; it involves shaping a future where AI contributes positively to society. This encompasses addressing issues of accountability when AI systems make consequential decisions, safeguarding against discriminatory practices, and fostering a culture of responsible innovation among developers and organizations.

In essence, the unfolding narrative of AI governance frameworks is a journey toward establishing a delicate equilibrium—where the boundless potential of AI is harnessed ethically, and the risks are mitigated responsibly. The unveiling of this tapestry of oversight represents a collective effort to ensure that AI serves humanity with integrity, fairness, and a commitment to the well-being of individuals and society as a whole.

This Plenary Session will –

- delving into the complexities of AI governance for both public and private sectors empowering next generation Legal Systems through AI Innovation.
- Explore the crucial collaboration between governmental bodies and private entities in crafting effective AI governance frameworks. Uncover how these frameworks adapt to the rapid evolution of emerging technologies, including quantum computing and advanced machine learning algorithms. We will discuss the challenges and advantages of public-private partnerships, ensuring comprehensive oversight.
- Examine the intersection of AI governance and human rights, addressing how AI impacts privacy, freedom of expression, and other

fundamental rights. Discover regulatory approaches to safeguarding human rights in the era of AI.

- Dive into the collaborative efforts of different countries to establish international standards, exploring the benefits and challenges of ensuring a cohesive and ethical global approach. Join us to delve into the ethical principles that underpin AI governance frameworks, tackling the tightrope walk of balancing innovation with ethical considerations.
- Understand the importance of transparency and explain ability in AI systems, exploring how governance frameworks ensure understandable decision-making processes for accountability.
- Delve into sector-specific challenges, considering data sensitivity and potential risks. Analyze the relationship between AI governance frameworks and innovation, exploring strategies to strike a balance between fostering creativity and ensuring responsible development.
- Assess existing AI governance models through case studies and real-world examples, evaluating how these frameworks adapt to the dynamic nature of AI technologies.

Join us as we also discuss the role of AI governance in crisis situations, ensuring responsible use of AI technologies during pandemics or natural disasters. It's an exploration of the critical landscape where AI and governance meet, shaping the future with insight and innovation.

SUB-SUB THEMES

- International Collaboration and Standardization
- Ethical Considerations in AI Governance
- Regulatory Challenges in Emerging Technologies
- Public-Private Partnerships in AI Oversight
- AI and Human Rights
- Transparency and Explain ability in AI Decision-making
- AI Governance in Critical Sectors (Healthcare, Finance, etc.)
- Impact of AI Governance on Innovation
- Evaluating the Efficacy of Existing Governance Models
- AI Governance and Crisis Management

2. Legal Policies and Deep Fakes: Navigating the Digital Jurisprudence:

As we step into the third decade of the 21st century, the digital landscape presents a host of challenges, and one of the critical frontiers in this realm is the rise of deep fakes. The convergence of advanced technologies and their potential misuse has prompted a pressing need for legal policies to navigate the complex terrain of digital jurisprudence.

The advent of deep fake technology, driven by artificial intelligence and machine learning, has ushered in a new era where the lines between reality and manipulation blur. Deep fakes involve the creation of highly convincing, yet entirely synthetic, content, including videos, audio recordings, and images. These can be used to fabricate events, speeches, or even entire personas with alarming realism.

The implications of deep fakes extend beyond mere technological novelty; they pose significant challenges to privacy, security, and the integrity of information. As these digital manipulations become more sophisticated, the legal framework must evolve to address the associated risks and mitigate potential harms.

Navigating this intricate landscape requires a nuanced understanding of existing laws, their limitations, and the formulation of new legal policies tailored to combat the threats posed by deep fake technology. It involves a delicate balance between safeguarding freedom of expression and preventing malicious uses that can lead to misinformation, defamation, or even national security risks.

In the face of these challenges, legal scholars and policymakers are tasked with exploring avenues for legislation that can effectively deter, detect, and penalize the creation and dissemination of deceptive digital content. This involves considerations of jurisdictional issues, ethical standards, and the technical feasibility of enforcement.

As the digital age unfolds, the urgency to fortify legal frameworks against the proliferation of deep fakes becomes increasingly apparent. The development of robust legal policies is not just a response to technological advancements; it is a proactive measure to uphold the principles of truth, accountability, and the responsible use of emerging technologies in our evolving digital society.

SUB-SUB THEMES

- Legislative Responses to Deep Fakes
- Intellectual Property Rights in the Era of Deep Fakes
- Privacy Concerns and Deep Fake Regulations
- Criminal Liability for Deep Fake Offenses
- Digital Forensics and Authenticity Verification
- Impact on Political Discourse and Election Integrity
- Media and Journalism Ethics in the Deep Fake Era
- Cross-Border Challenges in Deep Fake Regulation
- Technology-Assisted Dispute Resolution for Deep Fakes
- Education and Awareness in Digital Literacy

3. AI in Legal Practice and Education: Shaping the Future of Jurisprudence

The intersection of Artificial Intelligence (AI) and the legal domain heralds a transformative era in legal practice and education, reshaping the very foundations of jurisprudence. As AI technologies evolve, legal professionals find themselves at the nexus of innovation, harnessing the power of algorithms, machine learning, and natural language processing to enhance the efficiency and effectiveness of legal processes.

In the realm of legal practice, AI emerges as a formidable ally, offering tools that streamline legal research, contract analysis, and document review. Automated systems, powered by AI, can sift through vast legal databases, extract relevant information, and provide nuanced insights, significantly reducing the time and resources traditionally invested in these tasks. This not only accelerates the pace of legal proceedings but also allows legal professionals to focus on complex, high-value aspects of their work.

AI's impact on legal education is equally profound, influencing how future legal minds are nurtured and equipped. Law schools increasingly integrate AI-related coursework to prepare students for the evolving landscape of legal practice.

Understanding AI's role in legal reasoning, decision-making, and the ethical considerations surrounding its use becomes integral to producing adept and forward-thinking legal professionals.

The symbiosis of AI and jurisprudence raises essential questions about accountability, transparency, and the ethical deployment of technology in legal contexts. Legal professionals need to grapple with the ethical dimensions of relying on algorithms for decision support, ensuring that the application of AI aligns with legal principles and safeguards against biases.

As AI continues to weave its presence into legal frameworks, it becomes imperative for legal practitioners and educators to collaborate in defining the ethical boundaries and standards governing AI in the legal domain. Striking a balance between leveraging the efficiency gains offered by AI and upholding the core tenets of legal practice is crucial to shaping a future where technology augments, rather than diminishes, the pursuit of justice.

In essence, AI in legal practice and education is not just a technological advancement; it is a paradigm shift that requires a thoughtful and collaborative approach. Embracing the potential of AI in the legal domain holds the promise of a more accessible, efficient, and equitable legal system, thereby contributing to the ongoing evolution of jurisprudence in the 21st century.

SUB-SUB THEMES

- Innovative Tools for Legal Research and Analysis
- AI-Enhanced Legal Writing and Document Generation
- Virtual Legal Assistants and AI in Law Firms
- Simulation and Training in Legal Education
- Ethical Considerations in AI-Driven Legal Practice:
- AI in Predictive Legal Analytics
- Access to Legal Services through AI
- AI and Diversity in the Legal Profession
- Adapting Legal Curricula to AI Advancements
- AI and the Future of Legal Practice

4. Access to Justice through AI: Bridging the Divide

In the landscape of legal systems worldwide, the concept of "Access to Justice" has long been a cornerstone, signifying the right of individuals to navigate legal processes and seek redress. However, traditional barriers, such as financial constraints, limited legal awareness, and complex procedural intricacies, have often created a gaping divide, impeding many from realizing their right to justice.

Artificial Intelligence (AI) emerges as a potent force in bridging this divide, offering innovative solutions to enhance and democratize access to justice. AI technologies, ranging from virtual legal assistants to advanced case analysis systems, are reshaping the legal landscape by providing affordable, efficient, and user-friendly avenues for individuals seeking legal recourse.

One of the primary ways AI contributes to access to justice is through legal information dissemination. AI-powered platforms can deliver accurate and understandable legal information to users, empowering them to comprehend their rights and obligations. This not only fosters legal literacy but also enables individuals to make informed decisions about pursuing legal action.

Furthermore, AI facilitates the automation of routine legal tasks, reducing the burden on the legal system and making legal services more cost-effective. Virtual legal assistants, equipped with natural language processing capabilities, can assist users in drafting legal documents, understanding legal procedures, and even navigating through online dispute resolution mechanisms.

The advent of AI in legal aid services has the potential to revolutionize how pro bono legal support is delivered. Automated systems can match individuals in need with volunteer lawyers, optimizing the allocation of resources and ensuring that legal assistance is available to those who cannot afford traditional legal fees.

Despite the promising potential of AI in enhancing access to justice, ethical considerations and regulatory frameworks are paramount. Striking a balance between technological innovation and safeguarding fundamental legal principles is crucial to building a system that is both efficient and just. Ensuring transparency, fairness, and inclusivity in the development and deployment of AI tools for legal access is essential.

In the integration of AI in the pursuit of access to justice represents a paradigm shift, holding the promise of a legal system that is not only more efficient but also more accessible and equitable. As we navigate this transformative journey, the collaboration between technology developers, legal practitioners, and policymakers becomes instrumental in realizing a future where AI acts as a powerful catalyst in bridging the justice divide. Uncover the possibilities of translating legal principles into AI systems to enhance access to justice.

Witness the democratization of legal assistance, as AI becomes a powerful ally in ensuring justice reaches every corner of society.

SUB-SUB THEMES

- Online Dispute Resolution and AI
- AI-Powered Legal Aid Services
- Chatbots and Virtual Assistants in Legal Aid
- AI in Pro Bono Legal Services
- Justice Tech for Vulnerable Communities
- Language Access and Multilingual AI Solutions
- AI and Simplified Legal Processes
- Community-Based Legal Tech Initiatives
- AI in Public Legal Education:
- Measuring the Impact of AI on Access to Justice

5. Digital Sovereignty and Ethical Challenges: Charting the Course for a Responsible Future

The rapid evolution of digital technologies has ushered in an era of unprecedented connectivity and innovation, transforming the way societies function. However, with this digital transformation comes a pressing need to address the concept of digital sovereignty and grapple with the ethical challenges that arise in this interconnected landscape.

Digital sovereignty encapsulates a nation's ability to govern its own digital space, asserting control over data, technology infrastructure, and digital policies. As countries strive to harness the benefits of the digital age, questions of autonomy, data ownership, and ethical considerations become paramount.

In navigating the complex terrain of digital sovereignty, ethical challenges emerge on multiple fronts. One of the foremost concerns revolves around data privacy and protection. As individuals and businesses generate vast amounts of data, the responsible and ethical handling of this information becomes crucial. Striking a balance between utilizing data for innovation and safeguarding privacy rights necessitates the development of robust ethical frameworks and regulatory measures.

Another critical facet of digital sovereignty pertains to the ethical implications of emerging technologies such as Artificial Intelligence (AI) and biotechnology. The responsible deployment of AI systems and the ethical considerations surrounding issues like algorithmic bias, accountability, and transparency demand careful scrutiny. Similarly, the ethical use of biotechnological advancements, such as genetic editing, raises profound questions about the boundaries of scientific intervention and the potential consequences for humanity.

In the globalized digital landscape, the ethical dimensions of cybersecurity and information warfare come to the forefront. Nations grapple with the responsible use of cyber capabilities, ensuring that digital tools are wielded for the common good and not to the detriment of global stability or individual freedoms.

Charting the course for a responsible digital future requires international collaboration and the development of ethical standards that transcend borders. Multilateral efforts aimed at creating frameworks for digital governance, ethical technology development, and the protection of individual rights in the digital realm become imperative.

As societies strive to embrace the benefits of the digital age, fostering a culture of digital responsibility is paramount. Educational initiatives, public discourse, and the active involvement of stakeholders from government, industry, and civil society contribute to shaping an ethical and responsible approach to digital sovereignty.

In conclusion, the intersection of digital sovereignty and ethical challenges defines the trajectory of our collective digital future. Navigating this path requires a commitment to principles that prioritize individual rights, global collaboration, and the responsible use of technology. By charting a course guided by ethical considerations, nations can ensure a digital landscape that is not only sovereign but also just, inclusive, and mindful of the shared responsibilities in the interconnected world of tomorrow.

Engage in conversations that delve into digital sovereignty, navigate the complexities of data capitalism, and explore the role of AI in legal aid and fair elections. Join us in shaping a future where technology aligns with ethical imperatives.

SUB-SUB THEMES

- Data Governance and Digital Sovereignty
- Ethics in Artificial Intelligence Development
- Algorithmic Transparency and Accountability:
- Digital Citizenship and Rights in the Digital Age
- Cybersecurity and National Security Implications:
- AI and Ethical Decision-Making in Government
- Digital Imperialism and Global Technology Influence
- Technology and Electoral Integrity
- AI in Legal Aid and Access to Justice
- Corporate Social Responsibility in the Tech Industry

6. Competition Law & Other Related Laws and AI Challenges: Navigating the Intersection

In the intricate dance between the legal landscape and the burgeoning advancements in Artificial Intelligence (AI), the intersection of competition law and other related legal frameworks presents a complex terrain fraught with challenges and opportunities.

Competition law, designed to foster fair market competition and prevent anti-competitive practices, undergoes a paradigm shift in the era of AI. The deployment of AI technologies in business operations raises unique challenges that demand a careful examination of existing legal frameworks.

One of the primary challenges lies in the assessment of market dominance in the context of AI-driven enterprises. Traditional metrics for evaluating market power may prove inadequate when faced with the complexities of algorithms, machine learning, and data-driven decision-making. As such, competition authorities grapple with the task of adapting legal standards to effectively scrutinize and regulate AI-powered entities.

Moreover, the interplay between intellectual property laws and competition regulations becomes accentuated in the realm of AI. The proprietary nature of AI algorithms and the potential for monopolistic control over innovative technologies necessitate a nuanced understanding of how intellectual property rights align with the principles of fair competition.

The collaborative nature of AI technologies, often involving data sharing and interoperability, raises concerns regarding collusion and cartel-like behavior. Competition law must evolve to address these novel forms of collaboration while ensuring that innovation and competition remain vibrant in the AI ecosystem.

Ethical considerations also loom large at the intersection of AI and competition law. The responsible and unbiased use of AI algorithms becomes a focal point, with legal frameworks needing to encompass principles that prevent discriminatory practices and protect consumer welfare.

Navigating these challenges requires a comprehensive approach that considers the symbiotic relationship between competition law and other legal domains. Regulatory frameworks must be agile enough to adapt to the dynamic landscape of AI innovation while upholding the core tenets of fair competition, consumer protection, and the promotion of innovation.

In conclusion, the intersection of competition law and AI challenges represents a pivotal frontier in the evolving legal landscape. As AI continues to reshape industries and business models, the legal frameworks governing competition must evolve in tandem. Striking a balance between fostering innovation, preventing anti-competitive behavior, and safeguarding consumer interests is the cornerstone of navigating this intricate intersection.

SUB-SUB THEMES

- Antitrust Implications of AI in Markets
- Data Privacy Regulations and Competition Law
- Consumer Protection in AI-Driven Markets
- Intellectual Property Rights and AI Innovation:
- Trade Secrets and AI Technology
- International Cooperation in AI Regulation
- Market Dominance in AI Industries
- Ethical Considerations in AI Competition Cases
- Regulatory Challenges in Emerging AI Markets
- AI and Compliance with Regulatory Frameworks

RULES & REGULATIONS

1. CALL FOR PAPERS:

We cordially invite Research Papers on Theme, Sub-Themes and Sub-Sub Themes from Academicians, Researchers, Advocates, Students pursuing Law or any other Academic Degree as well as Professionals to contribute towards shaping the International Conference by their submissions.

2. CONFERENCE PROCEEDINGS:

All submitted Conference Papers would be peer-reviewed by Review Committee and the selected Papers would be published in an Special Edition of ALSG Journal(Peer Reviewed).

The Certificate of Presentation and Participation will be distributed to Participants.

3. REGISTRATION

- The Participants are required to submit the Abstract along with Registration Form. Link for registration - <https://forms.gle/qT6bzvJ6UEkWJ3G88>
- After selection of the Abstract, Participants have to fill the Participation Form (to be provided after selection) and send a scanned copy of the same to AUH at conferencealsinternational@gmail.com
- The Registration shall be confirmed and communicated only after the receipt of the scanned copy of the duly filled Registration Form.
- The Abstract and Full Paper for the Conference should be submitted at conferencealsinternational@gmail.com
- The subject of the E-mail must be "Submission for International Conference"
- Those who wish to attend the conference as attendee may do so by duly filling out the same registration form as above and attaching a scanned copy of the payment slip.

4. SUBMISSION GUIDELINES

- Co-authorship is permissible (subject to an upper limit of 2 Authors per submission).
- The main Author and/or presenting Author shall register separately.

Abstract:

1. The maximum word limit must not exceed 350 words, including Keywords.
2. The Author(s) shall specify the Title of the Paper, name(s) of the Author(s), professional titles, e-mail address(es) and contact number.
3. All Abstracts should be submitted through e-mail only.
4. Relevant Keywords are to be mentioned in Abstracts.
5. The Author(s) should indicate the theme on which the Abstract is based.

Note: The Abstracts shall be screened by the Review Committee. The Authors of the shortlisted Abstracts shall be intimated accordingly.

5. REGISTRATION FEE

Category	Indian Nationals	Foreign Nationals
Academicians and Professionals (Other than AUH)	Rs. 1 200/- + GST Extra	\$ 70/- (USD) + Taxes Extra
Students and Research Scholars (Other than AUH)	Rs. 1 200/- + GST Extra	\$ 50/- (USD) + Taxes Extra
AUH Faculty	Rs. 1 000/-	-
AUH Students	Rs. 1 000/-	-

In the case of Co-Authorship, both Authors are required to register individually.

6. MODE OF PAYMENT

The method of payment shall be as follows:

- The Payment is to be made through the following link: <https://amity.edu/gurugram/paymentgateway/NGI2024/>
- Fill in all the details and continue through to making the payment of fees as per the above criteria.
- Once the payment is done, make sure to take a screenshot of payment slip and note down the transaction ID of your payment.
- In the registration form, fill in the above mentioned particulars to complete your registration.

7. IMPORTANT DATES:

PARTICULARS	DATE
