

Advanced Training Programme On Digital Rights & Digital Equity

16-18th August, 2024

Gujarat National Law University

COURSE DESCRIPTION

Technology has become ubiquitous, permeating every aspect of our personal and professional lives. From social media and online shopping to remote work and e-governance, the digital sphere shapes how we communicate, transact, and interact with the world around us. However, alongside the unprecedented opportunities presented by digital advancement, there also exist significant challenges related to digital rights and equity.

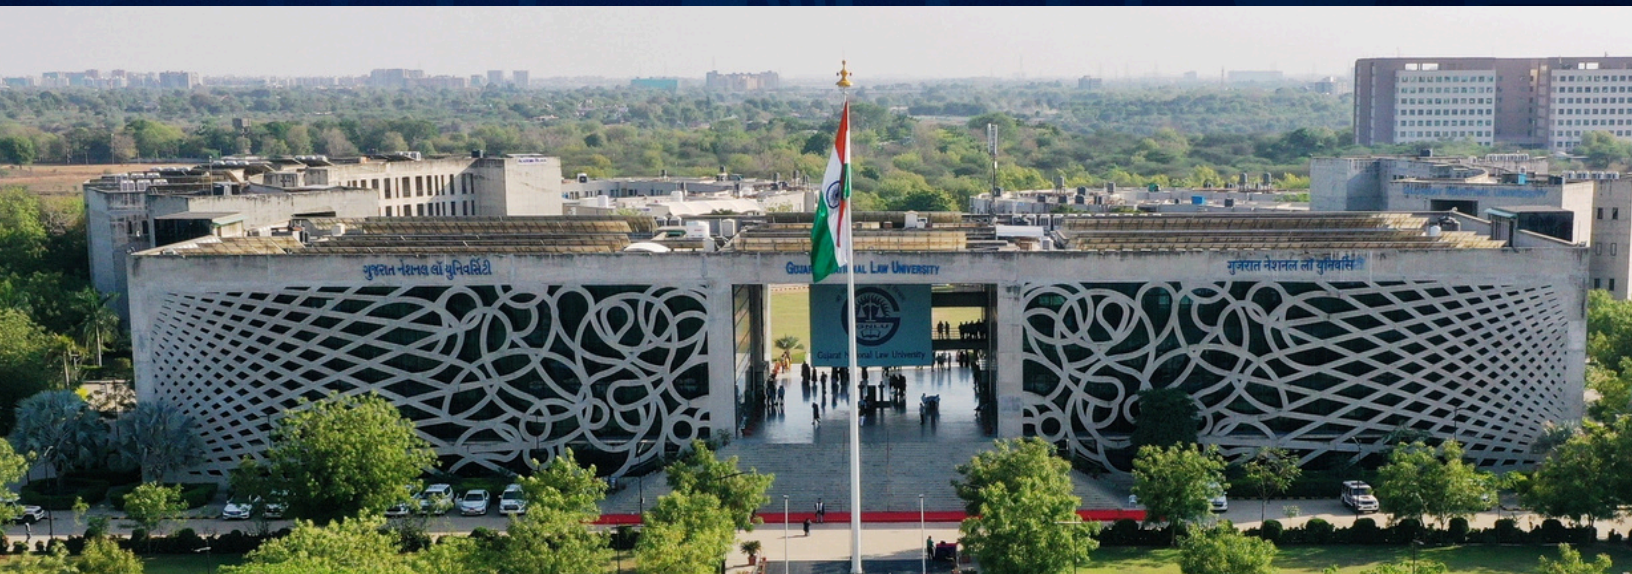

The need for a course on Digital Rights & Digital Equity stems from the growing recognition of the complex and multifaceted issues surrounding digital governance and inclusion. As digital technologies continue to evolve at a rapid pace, it has become increasingly clear that individuals and institutions alike must possess a deep understanding of digital rights principles and strategies for promoting equity in the digital realm.

The certificate course is tailored for a diverse audience including cyber law enthusiasts, digital rights advocates, academicians, and industry stakeholders. It offers to equip participants with the necessary knowledge and tools to navigate the intricate terrain of digital rights, digital divides, and digital exclusion, with a focus on both Indian and international laws and frameworks. By the end of the training program, participants will be equipped with the necessary insights and skills to champion digital rights and inclusion in their respective spheres of influence.

COURSE OBJECTIVES

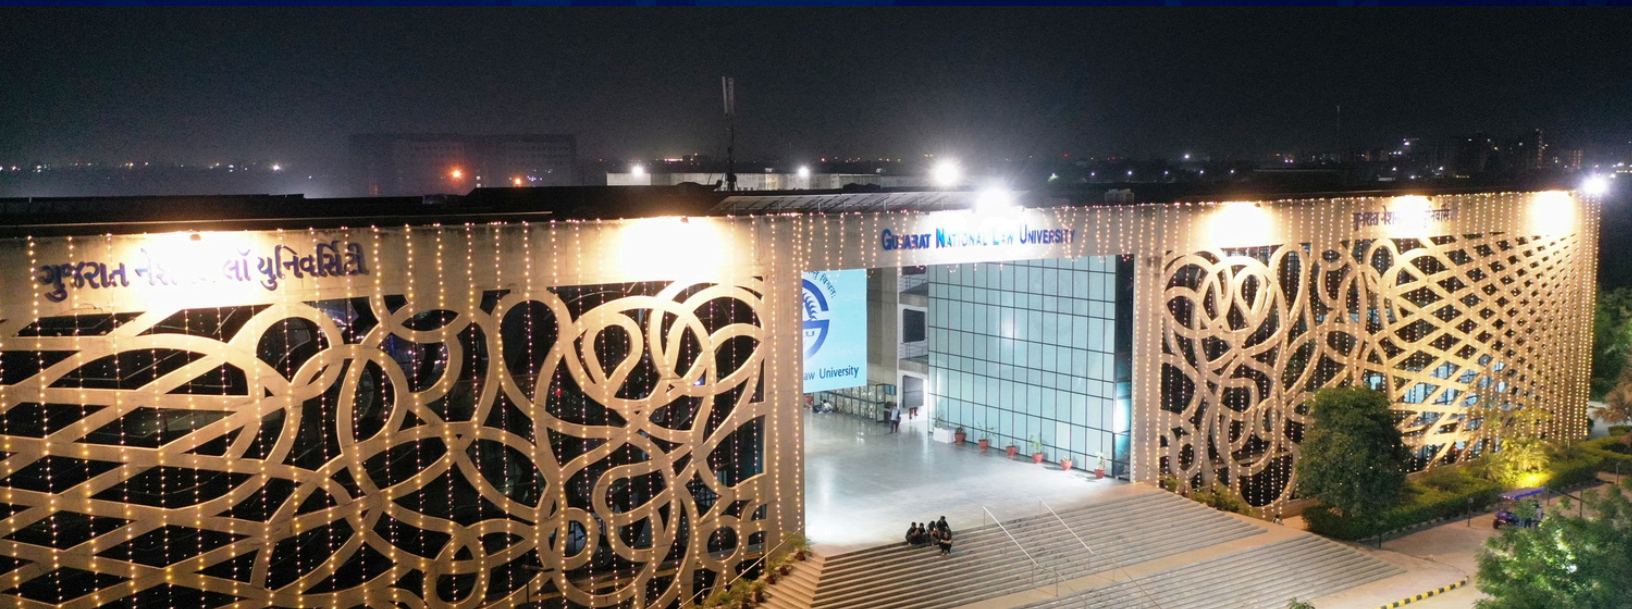

The Course intends to enable the participants:

- To understand digital rights encompassing privacy, freedom of expression, access to information, and digital security, contextualized within both Indian and international legal frameworks.
- To address digital divide by examining factors contributing to disparities, addressing infrastructure gaps, promoting digital literacy, and overcoming socioeconomic barriers to digital access.
- To promote digital inclusion by amplifying awareness around diverse voices, their concerns and promoting equitable participation in the digital sphere

COURSE OUTCOMES

- Gain a comprehensive understanding of digital rights, equipping participants with the knowledge and skills to navigate the complexities of the digital age.
- Develop actionable strategies through practical exercises and collaborative activities to address digital inequalities, promote digital literacy, and advocate for digital rights across communities and organizations.
- Enhance professional credentials and gain valuable networking opportunities, empowering participants to become effective advocates for a fair, equitable, and inclusive digital society.
- Participants will receive a certificate on completion of this course.
