

SVKM's NMIMS School Of Law
presents

3rd NMIMS INDORE MOOT COURT COMPETITION

4th - 6th April, 2025

Mode: Hybrid
{Online (Prelims) + Offline}

KNOWLEDGE PARTNER

FROM THE DESK OF HON'BLE DIRECTOR

**Dr. Anshuman Jaswal,
Director
SVKM's NMIMS, Indore**

Warm Greetings on behalf of SVKM's NMIMS, Indore for another edition of the NMIMS Indore Moot Court Competition, 2025. At SVKM's NMIMS we understand the importance of practical exposure for law students to acquaint them with pragmatic intricacies of real-world challenges. This competition embodies the said goal by providing a platform for numerous intellectual minds to convene and share their knowledge. I welcome and encourage you to embrace the challenges, exhibit professionalism and enjoy the experience. May this competition be a pivotal moment in your legal journey, shaping you into both competent advocates and conscientious contributors to the legal profession. Looking forward to hosting you at NMIMS Indore and witness a memorable event.

FROM THE DESK OF HON'BLE DEAN

Dr. Durgambini Patel
Dean,
Kirit P. Mehta School of Law

It is with great pride and enthusiasm that I welcome you to the NMIMS Indore Moot Court Competition 2025 at SVKM's NMIMS, Indore. Moot court competitions are more than just an academic exercise; they are an essential platform for aspiring legal professionals to refine their advocacy skills, engage in intellectual discourse, and gain invaluable real-world experience. I encourage each participant to embrace this opportunity with enthusiasm, integrity, and professionalism. May this competition be a transformative experience, shaping you into skilled advocates and principled legal professionals. We look forward to hosting you and witnessing an event filled with rigorous debate, insightful arguments, and a shared passion for the law.

FROM THE DESK OF ASSOCIATE DEAN

Dr. Ashutosh Hajela,
Associate Dean
SVKM's NMIMS, Indore

Moot Court Competitions are a testament to legal intellect, adorning the prestigious crown of the legal profession. The School of Law, SVKM's NMIMS, Indore, takes immense pride in organizing multiple mooting activities throughout the year, honing students' advocacy skills at both intra and inter-university levels. We are thrilled to invite you to yet another remarkable edition of the NMIMS Indore Moot Court Competition, where the brightest young legal minds from across the nation will showcase their prowess. This competition promises a confluence of intellect, advocacy, and innovation, setting new benchmarks in the legal profession. We eagerly anticipate dynamic participation in the presence of esteemed legal luminaries, top law firm associates, distinguished judges from district and constitutional courts, and renowned academicians. Join us in this celebration of excellence in mooting!

ABOUT NMIMS

With a legacy spanning 43 years, Narsee Monjee Institute of Management Studies (NMIMS) has not only secured its place among India's top 10 B-Schools but has also evolved into a distinguished multi-disciplinary university. With seven campuses across Mumbai, Shirpur, Bengaluru, Hyderabad, Indore, Navi Mumbai, and Chandigarh, NMIMS encompasses 19 constituent schools, offering diverse programs in Management, Engineering, Law, Pharmacy, Architecture, Business Economics, Science, Aviation, Liberal Arts, Design, and Distance Learning.

MISSION: In keeping with the university's mission to provide good quality socially sensitive human resources to the nation, the mission of NMIMS, Indore is to be an institution of excellence for learning & collaborative research in Management with a deep commitment to people.

VISION: In order to attain the stated mission, the campus has identified by certain niche disciplines in the field of management to excel in and accordingly the stated vision is to inculcate the 'learner centric' approach in management education.

CAMPUS

ABOUT SCHOOL OF LAW

The School of Law at NMIMS, Indore, established in 2019, has quickly emerged as a leading institution for legal education. Offering B.A.LL.B (H) and B.B.A.LL.B (H) programs, the school is dedicated to equipping students with comprehensive legal knowledge, critical thinking, and analytical skills. Its faculty consists of seasoned academicians and legal practitioners who foster a stimulating and supportive academic environment. To enhance the educational experience, the school hosts guest lectures by renowned experts from academia, the judiciary, and the legal profession, providing students with insights into contemporary legal issues and best practices. Experiential learning is a key focus, with opportunities for students to engage in debates, moot court training, and national competitions.

The school's National Moot Court Competitions, initiated in 2021, have quickly become flagship events, attracting law schools from across the country and gaining recognition for their excellence. NMIMS School of Law combines state-of-the-art infrastructure with innovative teaching methods to prepare students for successful legal careers. Its vibrant academic ecosystem and commitment to professional growth make it an ideal destination for aspiring legal professionals who seek to shape the future of law.

High Court with the Valedictory Ceremony graced by Hon'ble Mr. Justice Vijay Kumar Shukla Sir, Judge, MP High Court as the Chief Guest

MOOT PROBLEM

Prani News Limited v. State of Paradise

Pandora ('Pandora') is a 'Democratic Republic' and a 'Union of states' in South East Asia. It is the largest democracy in the world with a population of 1.5 billion. The Constitution of Pandora respects and protects human rights. It is a peace-loving country. Pandora is known for cultural diversity and national integrity. Paradise is a state in Pandora. It is a state which is known as an investment destination in Pandora and it generates 12% of the taxes in Pandora. Paradise is home for many world-renowned corporate houses and has made mark for itself on the world financial atlas.

Param, a young man of 28 years, is a policy enthusiast. Intrigued at the trends of 2019 elections in the state of Paradise, he started working on Leader-Grade ('LG'), an interactive website meant for sharing the work of the legislators. The information on this website is sourced from public at large and the same is used to rate legislators' performance on periodic basis, generally every month/quarter. It took Param and his team more than a year to translate this idea into reality. The Covid years had both helped and hampered the growth of LG and it was opened to public in June 2021.

LG is open for anyone who is a registered voter. Any citizen can register and share information about the work and performance of an elected leader by indicating a valid source of information (like a news published/ photo with time-stamp/ social media posts by the leaders, parties etc.) and same is verified before publishing the post. The user policy of LG clearly mentions that the information should be related to the professional life of the legislator and LG reserves a right to withhold any post which is about the personal life of the concerned legislator. The policy also cautions the users not to post any derogatory, defamatory or dubious content, and ensures that a disclaimer about content appears on the home page.

MOOT PROBLEM

In October 2022, after running LG for a little over a year, Param and his team of volunteers felt that the idea did not have the potential to scale up and at the same time the team did not have any resources, both human and financial, to run it successfully. Though the idea was really good but due to paucity of resources the ratings were always delayed. By June 2022, LG could post information and rating about only six months in its first year of operation. The team of LG was apprehensive about the ever-increasing abyss between the ratings and information would reduce the ratings to a string of non-contemporary past data, which will not have any bearing on present day.

Therefore, they turned the website passive and citizens can no longer share information. There were rumours in the policy circles that the team had threats from stakeholders and their followers and a few accused that LG is highlighting a few legislators and downplaying others which ultimately halted the operations of LG.

Prani News Ltd. ('Prani'), controls and runs the 24x7 news channel and network named Prathidwani News ('Prathidwani'). The news channel had gained popularity for its accurate and succinct reporting style. In fact, Prathidwani is unique in the sense that it tenders an unconditional apology if any news reported by it is false and the same is featured on the banner on the top of the screen for two days. This in turn brought it closer to the public and made it a go to news channel in the state of Paradise.

MOOT PROBLEM

Gearing up for the coverage of upcoming elections Prani felt that “LG’ can be a real gamechanger. Prani approached Param and after a series of meetings it successfully acquired the LG along with all the information on as is basis. However, Param parted with LG with only one stipulation that it should never be commercially exploited. All the registered users were informed beforehand about the possible change of ownership of the website and post the acquisition Prani had sent emails to all the registered users to contribute to LG with renewed vigour.

By January 2023, LG under the control and management of Prani had got a new life and turned out to be a sensation in the state of Paradise. Information about the legislators and their performance is now being posted in real-time and ratings are posted during first week of every month on LG website.

Prathidwani started using the performance ratings of legislators by LG in its news programmes as well. Prathidwani dedicated a prime-time slot for a monthly programme called ‘Leaderboard’ on the second Sunday of every month. ‘Leaderboard’ is a programme wherein the stories about top 3 legislators of the month are featured. Leaderboard entered the common parlance and household political discussions building upon the trust of people in Prathidwani coupled with the quick pace of ratings at LG. Few political analysts expressed reservations that though the ‘Leaderboard’ increased political awareness among voters but it would not serve the full purpose because the ratings are not entirely objective (as it is based on the information shared by the users of LG) and it has potential to mislead the voters.

MOOT PROBLEM

In October 2023, during a discussion in the Legislative Assembly of Paradise, it was suggested that in future, an LG kind of feature may be added to the website of the assembly which already has authentic information about wider metrics like presence of legislators in the Assembly meetings, participation in the meetings, reporting of activities undertaken in each constituency etc. This can be an attempt by the legislative assembly itself to increase political awareness among citizens with better and accurate information.

'Leaderboard' has been named as the 'Changemaker of News in Pandora' by the news aggregators network of Pandora. The awards were given in the annual conclave of news aggregators of Pandora. Mr. Paridi (Paridi), the CEO of Prani while receiving the award thanked everyone involved in the making of LGP Leaderboard, and especially Param and his team for actually conceiving and developing LG. On the question concerning the turn-around and success of LG, Paridi explained that the integration of PAIAL (pronounced as 'Pay-all'), an artificial intelligence-based algorithm is the secret of the success. He further said that PAIAL used by Prani has been domestically made by in-house software developers hired by Prani.

The LG website has some preliminary information about PAIAL and its working. PAIAL stands for Prani Artificial Intelligence Algorithm. It collects information about legislators on a defined set of parameters from various sources like newspapers, news channels, videos, images etc. on the internet. LG gets information through PAIAL, apart from the registered users. This gave LG under Prani an edge over Param led LG as apart from the ground level informants, LG now is armed with PAIAL to get information. The website also mentioned that PAIAL scraps data from the social media profiles of legislators available on majority of popular social media platforms. Though PAIAL gets information from the internet, it is generally cross verified by the news network team under the control of Prani before posting to ensure authenticity of the information.

MOOT PROBLEM

The schedule of general elections for the ninety (90) constituencies in the Paradise State Legislative Assembly is notified and the state of Paradise is gearing up for the 2024 elections. LG and Leaderboard took centre-stage in the campaigning of candidates.

The legislators who are ranked higher are canvassing by referring to LG ratings and snippets from 'Leaderboard'. The legislators who are ranked lower are portrayed as failures by their opponents using LG data. The experts, psephologists and other news networks besides Prathidwani are also using the data from LG website on monthly and quarterly ratings to assess and analyse the candidates.

Poll-It ('Poll-It'), a think tank working on political awareness highlighted the insufficiency of data, citing that it only contains information about current legislators and not their competitors in a given constituency, Poll-It opined that LG and the 'Leaderboard' is creating an imbalance in the information that is percolating among the masses.

A week before the elections, a few legislators citing the work of Poll-It, filed a writ petition in the High Court of Paradise to stop the use of LG data in all its forms and prayed for immediate take-down of the same in light of its potential ill effects on voters. Prani contended that the data is taken from publicly available sources and it is never manipulated to suit a candidate. Elections have ended even before the High Court could pass an order.

MOOT PROBLEM

The results of elections raked a surprise to all. None of the parties could reach the magic figure of majority to stake a claim to form the government. Majority of the victors in the elections belong to Paradise Land Party ('PLP') and Democratic Paradise Party ('DPP'), the two major political parties barring a few independent candidates. The following is the break-up of seats secured by these parties, PLP won 44 seats, DPP won 43 seats and remaining three seats are won by independent candidates. Political analysts of Paradise are disgruntled with the hung assembly and expressed displeasure that it left the scope for horse-trading. News channels reported widely that the parties are planning to move their newly elected legislators to favourable resorts under their control outside the state of Paradise.

Prathidwani reported that all the three independent candidates are in active contact with both the parties. By the evening of the day of results, Prathidwani broadcasted an update that candidates of PLP are in Polykit Resort ('Polykit') in Palapur town in the state of Pali, which shares its border with Paradise.

By midnight of the results day, reporters of Prathidwani reached Palapur and tried to cover the political action transpiring at Polykit. The security denied claims that elected candidates are housed inside. The team of Prathidwani were stopped by the security staff of the resort from entering and recording. Few other channels also reached the resort and in two hours it turned out into a mayhem resulting in severe injuries to the cameraperson and the reporter of Prathidwani during their attempts to barge in the resort. None of the news reporters could enter Polykit. The rival news channels of Prathidwani reported that a reporter was injured in an attempt to sensationalise a non-existing news. The local police registered an FIR against 'Pratidhwani' for abetting disruption of peace.

MOOT PROBLEM

Everyone was expecting that Prathidwani would air an apology to the public at large for misleading about the place of location of elected candidates of PLP. Prathidwani released clarification and denied all claims about sensationalism. The clarification mentioned that Prathidwani has credible information about PLP candidates being housed at Polykit. In the afternoon of the following day, the Prathidwani reporter succumbed to injuries. Everyone started blaming Prathidwani for sacrificing a reporter for popularity. The editor of Prathidwani released a condolence statement and explained the reason for the firm belief about the location of the legislators.

The editor's statement said that the PAIAL found a photograph of one of the independent candidates posted on his social media platform which was deleted in less than an hour. The photograph features the independent candidate with three other legislators belonging to PLP, partying by the pool. PAIAL with its augmented capability extracted information from the picture and compared the images with available data.

The pool next to the candidates had starking similarities with the pool at Polykit and the news team concluded that the location of the candidates is Polykit. Another reason for coming to the conclusion was presence of a QR code on the table next to the candidates, which was scanned after enhanced digital reconstruction. The QR code provided the liquor menu of Peelo, the bar at Polykit. The statement reiterated that Prathidwani is committed to integrity of the news and would never risk the lives of Prathidwani family for popularity.

In the meanwhile, PLP formed the government with the help of two independent legislators. The chief minister elect condemned the incident at the gates of Polykit, which resulted in the death of news reporter and promised that his government would take appropriate action to prevent such incidents in future.

MOOT PROBLEM

The Government of Paradise passed an ordinance prohibiting any rating of legislators with or without the help of Artificial Intelligence. The rationale for the ordinance is explained by the Chief Secretary of the state citing the work of Poll-It and the scope of potential misuse of such exercises which can hit at the root of 'free and fair elections', a cherished democratic ideal of the Republic of Pandora.

As an aftermath of the ordinance, the shares of Prani News Ltd. pummelled to floor prices resulting in huge loss to the company and its shareholders. In response to the Ordinance, Prani moved to the Supreme Court of Pandora challenging the validity of the ordinance for being violative of right to freedom of speech and expression, right to information and right to carry on trade, business or occupation.

During the same time Pratidhwani received notice to appear in the Court of Palapur for abetment of activities at the gates of Polykit which ultimately resulted in death of the reporter of Pratidhwani. Pratidhwani approached the High Court of Pali seeking the quash of FIR.

Pratidhwani contended that their reporter and the cameraman were acting on credible information and tried to expose horse-trading relating to 2024 elections in accordance with their duty of responsible journalism. The state of Pali contended that information procured through AI can't be deemed to be credible information and by no means a news channel can try to barge into a private property at midnight.

MOOT PROBLEM

The Supreme Court of Pandora stayed the proceedings pending before the High Court of Paradise and the High Court of Pali, till it decides the following issues:

- 1) Whether the ordinance is constitutionally valid?
- 2) Whether the rating of legislators affect the conduct of 'free and fair' elections?
- 3) Whether the use of artificial intelligence in gathering information about candidates is legal?
- 4) Whether a person can be held vicariously liable for the consequences of actions contemplated on the basis of artificial intelligence?

NOTE: The laws of pandora are Pari materia to the laws of India.
The participants are free to frame additional issues.

"We extend our sincere gratitude to **Dr.P. Bayola Kiran**, Assistant Professor at NALSAR University, for his invaluable contribution in drafting the moot problem."

Disclaimer: Any attempt by a participant or team to contact Dr. Kiran regarding the moot problem will result in immediate disqualification and further consequences as deemed appropriate by the organizers.

REGISTRATION PROCESS

Students are to register for the competition through the google form. The students have to fill out the fields provided in the Google form and complete the payments formalities which have been mentioned in the above mentioned form. Post-registration, the participants would be receiving a conformation mail from the organizing committee, confirming the team's registration.

Link for the registration:

<https://forms.gle/dg2kKGZD4zRLPM756>

Scan & Pay

₹3500 for Prelims Round

(In case the team qualifies for the Quarter Final Round there will be a further email to intimate payment of **₹3500/- additionally**).
